Subject: RE: Adhesive substitution

Daryl,

I don't have a problem with this substitution, but we should do a drawing change before you start using it.

Regards,
David

Subject: Adhesive substitution

David

I would like to know if it's possible that you might have delegation to allow substitution of one adhesive for another.

The D212-725-949 Duct Assembly uses EZ250150 Polyurethane, I would like to be able to change that to the Devcon Plastic Welder II.

The reason being that we use the EZ250150 on only the duct and ducting for the 206 parts where required. We make so little of these that every time we get an order, I have to order a new batch because the shelf life is run out. The Devcon Plastic Welder II is the adhesive we're using on the 139 ceilings, so we'll be more likely to have un-expired adhesive readily available all the time.

RSVP
Daryl

I am good if Mike/Chris signs off a deviation based on my email.

Regards,
David

Perfect. Perhaps just a sign off deviation for this one?

Linda the parts are formed and trimmed< I was just waiting on David to substitute the glue and he's OK with that but he would like to see the dwg. changed first so I'll get after Michael to have someone do this pronto.
